

Protect What is Important with CleanGuard™

This environmentally friendly leak containment system features custom fit trays to capture leaks and drips from the power unit and the steer cylinder of ES scissor lifts.

CleanGuard replaces the need to cover the entire underside of the machine and focuses on the key areas where leaks may occur. Designed specifically for JLG ES series scissor lifts, CleanGuard does not interfere with operation or general servicing, is re-usable unlike diapers and blends in with the aesthetics of the machine.

COLLECT DRIPS AND LEAKS TO:

- **Protect** delicate surfaces from leaks and stains
- **Expand** use of machines into places such as museums, data centers, hotels and other leak sensitive job sites
- **Lessen** risk of environmental hazards
- **Reduce** risk of slip hazards associated with slick surfaces

CleanGuard is available as an **option** for **ES models:**

- ES1330L
- ES1932i
- ES2632
- ES1530L
- ES1932
- ES3246
